# BIOMANCY IMMERSION

**A Deep-Dive into Embodied Education**

**The Biomancy Immersion 6-month Program is a profound and innovative training designed to give you the foundations for your next step as a teacher, leader, healer, mystic, and spiritual journeyer.** Dr Azra Bertrand offers an extensive, pioneering and unique education – that weaves back together the worlds of spirit, magic, body, intuition, earth and science, research, and somatic healing. The immersion helps you ground your magic healing gifts into reality, and see the world - and your clients - with new eyes.

**You'll gain a deep understanding of your quantum Body Magic,**

from the physical, energetic and spiritual dimensions of our body, and major systems (like our cerebellar consciousness and nervous system), to the energy templates and maps that underly our physical form and are the quantum root of our wellbeing, consciousness and ability to live a fulfilling, creative and magical life.

**You will also enter into a Plant Mystery School,**

where you will learn how to connect on a deep level to the Elements and the science of their magic, so you can call on them for wellness, healing, and spiritual support. As you gain vital skills of body and eco gnosis, you will be able to tune into the subtle realms of Plant Magic and open your gifts of plant mediumship & medicine.

## To support your embodiment and spiritual evolution,

Dr Azra Bertrand will guide you with a daily biomantic practice that will land mystical wisdom directly inside your body, so you can deeply *feel* how your body is working *with* nature in symbiosis, so you can enter into the 'Dreaming of Gaia'. Helping you to develop an intimate, loving, and inspiring relationship with all the ecosystems in our reality, from your own energy, life force and magic, to your human community, and all the beings of earth, such as animals and plants.

# OVER 50+ HOURS OF WISDOM TEACHINGS

During your 6-month immersion with Biomancy University, you will receive access to over 50+ hours of pre-recorded video teachings with Dr Azra Bertrand, that include detailed PDF's and transcriptions, shared in a beautifully designed boutique student portal. You will also be guided to watch and engage with the teachings with a weekly email program, that will share the key 'take-aways' from the teachings of each of the 6 Modules, in a way that will be easy to access and integrate in your life.

# BIOMANCY UNIVERSITY: APPRENTICESHIP WITH GAIA

Biomancy is the future of healing and a portal to a new way—it is led by the intuition of Earth, speaking through our bodies, bringing us into coherence with the greater ecology of life. There can be no real healing, awakening or magic without being in synch with our self, our community, our environment. We are all rooted in connection.

Biomancy will give you the tools, practices and cosmology to transform yourself and the world around you—the Biomancy Immersion is an Apprenticeship with Gaia herself. It will reveal how you can know and embody this earth-wisdom and somatic magic, for your own personal healing and to share it with your community.

## TESTIMONIAL

### Jade Bertaud - Texas

*"Dr. Azra Bertrand teaches with a contagious passion, holistic wisdom, and lots of fun. He integrates many branches of wisdom from medicine, science and history to shamanism, mysticism, and alchemy. The collective medicine of Biomancy for me is that it's totally inclusive and wildly visionary. It invites us to embrace our shared group evolution and greatest personal potential."*

# DR AZRA BERTRAND

## Meet the Biomancy University Founder

Azra Bertrand, M.D. is an award-winning author, healer, teacher and mystic. He has a degree in biochemistry, and received his medical degree from Duke University. He did research at the National Institutes of Health in maternal-child bonding and neuroendocrinology before completing a residency in family medicine through the University of California-San Francisco. Coming from a long line of healers and doctors, Azra's desire to understand the energetic and emotional roots of health led him to train in Reichian bioenergetics with Dr. John Pierrakos, in the lineage of Freud and Jung. He went on to have a successful 10-year practice in integrative medicine based in northern California, where he worked with pioneering health modalities.

In 2012, he retired from clinical medicine to co-direct and apprentice in a feminine and earth-centric mystery school, with his wife Seren Bertrand, teaching thousands of people across the globe. During this time he received 6 international awards, including two Nautilus awards, for books on earth-honoring, and feminine-centered spirituality. His studies in magic and spirituality led him to remote tribes in the rainforests of Indonesia, an apprenticeship with a Balinese Priest, education at a monastic university in India, pilgrimages to sacred sites across the world, from Egypt to Black Madonna sites, and studies of magical practices in the Brythonic tradition of the Celtic lands of Britain.

He is the founder and director of Biomancy University, a unique and ground-breaking new model of education that merges leading-edge science and mystery traditions, designed to awaken our bio-magic in connection with our living planet Gaia. It is based on western magical and alchemical traditions, as well as earth-centered wisdom teachings, that are now supported by science and principles of deep ecology. When we re-weave ourselves back into nature, and into the wisdom of our bodies, we heal and awaken, and become oracles for the embodied intelligence of our planetary mother. Biomancy —the path of bio-magic and eco-magic - is the medicine of the future.
