

BIOMANCY 2021

Awakening Body Magic

With Dr Azra Bertrand

A new work called '**Biomancy**' is emerging into the world, which is a beautiful and powerful synthesis of Dr Azra Bertrand's 20+ years of experience in the scientific, embodiment, healing and mystical realms. **Biomancy** is the way of the future; where we reclaim the powerful biological magic within our bodies, our psyches and our ecology, to reweave the worlds of potential that have become separated and fragmented. **Biomancy** integrates the forbidden knowledge of the high scientists, magicians and alchemists, with the embodied feminine essence, as it flows through all of us, when we truly switch on and come alive to our organic power.

This year Dr Bertrand is calling for those who know they wish to be part of a renewing ancient knowledge that merges scientific knowledge with feminine knowing, to birth new oracles.

The details, prices, dates for these events are below. **Or email Louisa Williams, Program Coordinator at contact@azrabertrand.com to register or with questions.**

In April he will be launching a 5-week **Biomancy Immersion** course, which will unfold over 5 weeks with weekly 2-hour online workshops. This will be strictly limited to 30 people to create a connected community of Biomancers, with time and space for questions, sharing, and insight. Replays will also be sent out for all participants. There is a USA/Europe group, and an Australia/Bali /Asia group so that timings of the calls are convenient for those across the world. Details are below.

There is also a **Biomancy** introduction Retreat booked at Prama Retreat Center near Asheville, NC, USA on May 13th – 16th for an embodied experience into the magic studies of **Biomancy**. This is strictly limited to 15 people in a spacious location.

In 2022 ***Biomancy University*** will launch, ready to share the magical education we've been waiting for, that connects body, science, healing, magic, ecology, cosmology, astromancy and awakening.

A new website and beautiful short film documentary will be launched in 2021 in support of the work.

If you are interested in registering for the online immersion, or attending the retreat (you can do both, or just one or the other), please reserve your place with a payment (details attached below), or email contact@azrabertrand.com with questions.

If you have friends, or students and circles who would like to participate, please pass details of this event on to them.

BIOMANCY: RESTORING CONNECTION

Biomancy is full of practical magic and knowledge; helping people to reconnect to their own inner knowing and the healing magic within their own bodies; this biomagic is our birthright. Now, more than ever, we need to initiate our own magic.

This work is for everyone, and in this journey you will find ways to connect into your deep knowing, awaken your body senses and intelligence, root into the body of earth, connect into your soul potential, and become aware of a glittering embodied magic, whilst also receiving an education in the cutting edge science pioneered by the Alchemists, and still unfolding today. You have amazing powers hidden within.

If we do not know what lives within us, or how our bodies really work, how can we call upon the deep wisdom available to us? We were born magical, and now is the time we reclaim it. At the roots, our reality is unified; our psyche, body, environment, ecology, and cosmology are entangled with our innate human potential.

BIOMANCY: ROOTING INTO THE FUTURE

At the start of 2020 during the worldwide 'lockdowns,' Dr Azra Bertrand, and his wife and co-creatrix Seren Bertrand retreated inwards and lay on the earth every day for 2 months to receive her messages and oracle wisdom for the future world to come.

The Biomancy vision emerged as a direct result of this communion. Earth wishes for us to reconnect to our bodies and her body, and to understand our place in her world. We are in an unprecedented time of shifts and our body knows the way.

The Biomancy work is led by Dr Azra Bertrand, but has been co-visioned with Seren Bertrand, with roots deep in the feminine mysteries of Sophia, including Earth-centered body maps, and the arts of feminine body magic. The Biomancy vision is 'Rooted into the Future' – it includes many aspects of ancient ways and titles; shamanism, wizards, witches, druids, seers, alchemists, priestesses, whilst renewing these old traditions and placing them firmly in the present-future, where we now have to walk wisely. A Biomancer has embodied their bio magic, amplified their oracular psychic powers, and opened their Biomantic Blueprint of quantum biology.

Never has there been a better time to understand and initiate our inner powers of magic!

BIOMANCY COURSE DETAILS

Biomancy Online Immersion (5 Weeks) - \$350 (USD)

5 Weeks of 2 hour Zoom Workshops (10 hours of tuition)

Course limited to 30 people to create a group container

Personal questions and group interaction on the calls

Recommended to be able to attend live (Sundays)

Playback links to download sent out the day after for those who can't attend + for review Course Themes – 5 PDF handouts to support the classes

Daily Personal Practice assignments weekly (your choice)

5 Sundays in April/May– April 4 ,11 ,18 ,May 2 ,9

Paypal payments@azrabertrand.com with payment to confirm your place
Or email for card payments or 2 installment payments \$200 deposit, \$150 final payment.

There are two different groups – please note your country of current residence when you register. Full time zones for the live Online Biomancy Workshops are listed below.

INTERNATIONAL TIME ZONES

The time zones for the calls are listed below (keep scrolling down).
Please email Louisa Williams, Program Coordinator, for further details.
